

#Leadwell: Building Leaders for Tomorrow

Public vs. In-House Program

Our foundations of people leadership program was developed and is delivered by professional leadership experts. Our program is grounded in the conviction that effective and impactful leaders require insight into their personal leadership style. Development of that style - in addition to learning and adapting key leadership and management behaviors - ensures that leaders are leading well in today's diverse environments.

There are two ways in which an organization's leaders can take advantage of the program.

PUBLIC PROGRAM

Organizations may register up to 3 leaders at a time to participate in the public delivery of our foundations of people leadership 8-session program. Sessions are delivered in a half-day format over a 10 to 12 week horizon.

The cohort is limited to 12 participants for virtual programs and 16 participants for in-person programs.

The diversity of organizations involved provides a unique opportunity for leaders to learn with leaders from a variety of industries, creating a rich learning environment.

IN-HOUSE PROGRAM

The foundations of people leadership program can be delivered in its proven successful format or customized to meet the goals/desires of the organization.

The organization divides leaders into cohorts of 12 participants for virtual programs and 16 for in-person. Each cohort works through the series of half-day sessions over a 10 to 20 week horizon.

The opportunity for leaders from the same organization to learn together provides for bonding and broader/deeper relationships across the leadership community.

Which Program is Right for You?

Bishop House's **#Leadwell: Building Leaders for Tomorrow** program is a unique and impactful foundations of people leadership training program. The program provides **immediate and sustainable impact for leaders.**

There are two ways in which an organization's leaders can take advantage of our program:
Public Program or In-House Program.

	PUBLIC PROGRAM	IN-HOUSE PROGRAM
We like that our leaders would be mixed in with leaders from other organizations.	✓	✗
We like that our leaders would be staying together while going through the program.	✗	✓
The 8 topics are perfect.	✓	✓
We want to customize some of the class sessions and/or want less than 8 topics.	✗	✓
It's difficult in our business for us to pull 16 leaders out together for a training session.	✓	✗
We can invest now for a full training program.	✗	✓
We'd prefer to spread our investment over time.	✓	✗
